The Bo-Karoo ARC Donates Two Trophies to the SARL

The Bo-Karoo ARC has donated two trophies to the SARL. The Tjaard Van Der Walt HOTA Activator and Chaser Trophies will be awarded at the end of each year to the amateur who has activated or chased the most Heritage on the Air sites around the country. The Club is working on the criteria for each trophy; this will be published in Radio ZS and the SARL Awards Directory. Thank you to Tjaard, ZS3DR, and the Bo-Karoo ARC.

The SARL Wednesday 80 m Club Contest (not a sprint!)

The first leg of the SARL Wednesday 80 m Club Contest will be run from 17:00 to 18:00 UTC on Wednesday 19 January with phone, CW and digital activity. Word to the Wise

Exchange - the information to be transmitted and received over the air in a contest. Each contest has its own specific exchange that must be included in the log submitted to the contest's sponsor. The exchange often includes your call sign, but often includes a sequence number, general location indicator, or signal report. It is always best to check the rules of the specific contest to make sure you know what the exchange is.

Operating Tip

Bob Witte, K0NR, shared an article on his web site - What is a Valid QSO? The article begins by explaining what makes up the elements required for a valid QSO. The article then looks into specific contest, weak signal, and digital mode QSOs and the challenges that each present in acknowledging that the QSO information has been properly exchanged.

DX from Africa

Mauritius, 3B8. Simon, TA/XW0LP (G6JFY/HS0ZIB/XW0LP/XZ2A) has left Turkey for warmer weather. He states on 10 January on eHam.net, "My plans to activate 1B (Turkish Republic of North Cyprus) are no longer feasible, because the licensing authorities failed to reply to any of my communications! Whilst languishing in Turkey waiting for that licence, the cold weather created a lot of problems for my lungs (I have a long-term lung illness) and I had to quickly look for a new and hot country to call home.

Well, here I am in sunny Mauritius! I have rented a nice house with a big garden and hope to be on the air in the next month or so with my 3B8 call sign. Especially, I hope to do some low band DXing (I managed to bring my 12 m and 18 m Spiderbeam poles with me!). I will keep eham informed of progress. At least Bouvet should be a chip-shot!"

Mauritius, 3B8. Slavo, SP2JMB, and his XYL Dorota, SP2TO will once again be active as 3B8GY from Mauritius between 5 and 25 February. Their last activity was in 2011. Operations will be on various HF bands and modes. QSL via SP2JMB direct.

Mauritius, 3B8. Ray, HB9DNG/F5UKV (ex-9Q5RP), will be moving to and be active as 3B8HH from the small village of Pereybèrein, very close to Cap Malheureux in the north part of Mauritius, starting around 20 January. He informs OPDX that he will be running up to 100 watts into wires and EndFed antennas. Activity will be on 80 - 2 metres (possibly 160 m) using mainly CW and some SSB. Having his station is completely installed, Ray plans to operate some digital (PSK at the beginning; then RTTY). He also mentions that he might use FM on 10 metres. His operating schedule will be more or less daily; probably starting from 18:00 UTC and onward accordingly to propagation conditions. Regarding QSLing, Ray states that he is "from the old school and likes 'paper QSL.' At the very beginning, Ray will start with direct QSLing, but very quickly will use the Mauritian MARS (Mauritius Amateur Radio Society) QSL Bureau. Currently, he does not have a QSL Manager. He will upload his log to ClubLog. There will be NO eQSL. More info about the operator and his station is available on QRZ.Com and HAMQth.com.

Kenya, 5Z. Ferdy, HB9DSP, will be active as 5Z4/HB9DSP from Malindi (Grid LI06BR), Kenya until 31 January, depending on the current Covid situation. This will be his first ever DXpedition. Activity will be on 20/15/10 metres using mainly SSB with some digital. His equipment is an Icom IC-7300 into an Spiderbeam Quad. QSL via his home call sign, direct, by the Bureau or LoTW (preferable).

Senegal, 6W. Willy, ON4AVT, will be active as 6W7/ON4AVT from Warang between 6 February and 10 April. Activity will be on 80 to 10 meters using SSB and the digital modes, with an IC-7100 into End-Fed wire or Double Zepp antennas. There will also be QO-100 satellite operations. QSL via ClubLog's OQRS.

Cape Verde, D4. Oliver, DJ5QW, will be active as D4CW and D44DX from Santa Maria village, Sal Island (AF-086), Cape Verde, between 19 February and 2 March Activity will be on 80 to 10 metres using CW and SSB. QSL via his home call sign or by the DARC Bureau.

Côte d'Ivoire, TU. Petr, OK1BOA, Petr, OK1FCJ and David, OK6DJ will once again be active as TU5PCT from the Radio Club ADRASEC RCI in Abidjan, Côte d'Ivoire between 7 and 12 February - building station on 5 and 6 February and dismantling on 13 February. Activity will be on 160 to 6 metres using CW, SSB, RTTY and other digital modes. QSL via OK6DJ, ClubLog's OQRS or LoTW. For more details and updates, see https://www.cdxp.cz
